

## AVCO CONSTRUCTION STARTS IN NOVEMBER

Dr. Lloyd P Smith, President of the AVCO Research and Development Corporation has told the members of the Wilmington Rotary Club that the first spadeful of earth for the new AVCO laboratories, in Wilmington, will be turned 'in late November or early December.'

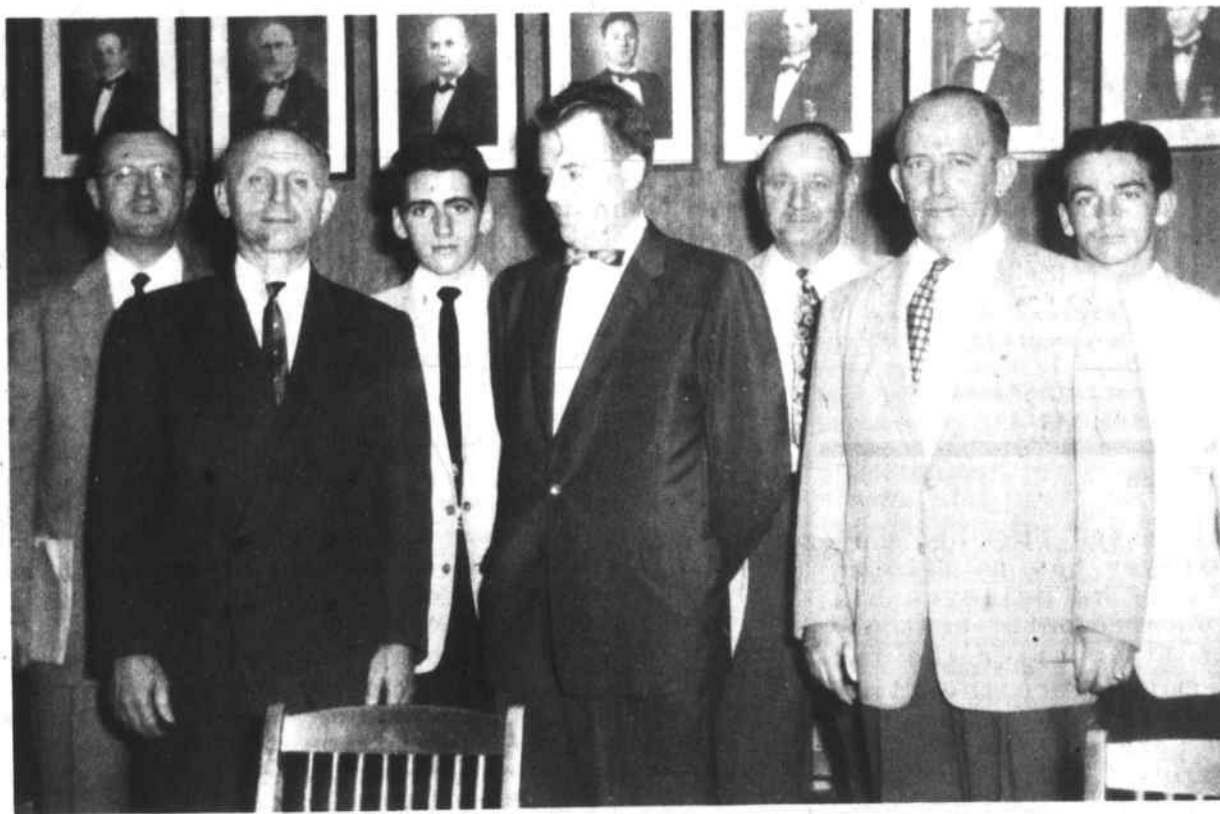

Dr. Smith, a Rotarian, spoke to the members of the Wilmington Club after their regular weekly luncheon, on Sept. 26th. He not only spoke on the immediate plans of the AVCO Research and Development Corporation, but also of the long distance plans--the type of research that is intended for the new plant.

High tribute was given to Town Manager Joseph Courtney, by Dr Smith, in his talk. AVCO's coming here, he said, was 'definitely as a result of his work' and 'he is a man in whom we have found we can place our trust.'

'What we will do here ought to reflect credit on the community. It will have a definite bearing on the nation's welfare, and in providing for the future peace.'

The AVCO corporation is one of about 100 largest in the United States--during the war it was engaged in defense work and was the third largest producer, in aviation, but after the war that part of the company was sold.

About six months ago, the Board of Directors of AVCO (cont. on page 5)

DR LLOYD P SMITH, PRESIDENT OF AVCO RESEARCH & DEVELOPMENT CORPORATION AFTER SPEAKING AT THE WEEKLY LUNCHEON OF THE ROTARY CLUB, LAST WEEK, IT WAS THE FIRST PUBLIC APPEARANCE OF THE NEW PRESIDENT OF THE AVCO LABS, IN WILMINGTON. WITH DR SMITH IN THE FRONT ROW ARE TOWN MANAGER JOSEPH COURTNEY AND SELECTMAN FRANK HAGERTY. IN THE REAR ROW ARE ROTARY VICE PRESIDENT JOHN GLEASON, JUNIOR ROTARIAN RUSSELL GOULD, PRESIDENT HERB PICKERING AND JUNIOR ROTARIAN SAMMY CAVALLARO.

### LITTLE LEAGUE WINDUP NIGHT ON OCTOBER 12TH

The Wilmington Little League Windup Night will be on October 12th., at a site still to be determined, starting at 7:30 pm. Officials of the Little League, and the ladies of the Little League Auxiliary are combining efforts to provide a program which, they state will be both colorful and enjoyable.

A surprise guest is to be

present, one of the leaders of Little League in New England. Pins are to be given to all retiring Little Leaguers, the superannuated oldsters who have passed their 12th birthday, and there is to be movies.

The committee in charge would like to have any parents who took movies of any part of the Little League season get in contact with them, for the purpose of borrowing the films for the Windup Night. Mrs Marilyn Farrell, OL 8-3116, or Ralph Zwicker, OL 8-3604 are the persons to call.

Refreshments are to be provided by the ladies.

All managers have been asked to turn in any equipment that is still outstanding.

### SCHOOL ENROLLMENT 2,474

Enrollment in the Wilmington Public Schools reached a new high of 2,474, an increase of 130 over last year, Supt. of Schools John J Collins announced Oct. 1.

### TENTATIVE INCREASE OF 50 CENTS IN AUTO RATE

Compulsory automobile insurance rates will be increased 50 cents, for 1957, according to a tentative schedule released by the State Commissioner of Insurance, Joseph A Humphreys, last Friday. This year's rate for Class 1 drivers is \$42.00. Next year it will probably be \$42.50. Class 2 drivers, people under 25 years of age, will also have a 50 cent increase to \$66.00. Class 2a and 2b people under 25 with driving school certificates, and people under 25 who are married and have a family will remain unchanged, at \$54.00.

### UNIVERSITY OF MASS. OFFERS HIGH SCHOOL GUEST DAY

The University of Massachusetts at Amherst has invited any high school junior or senior and their parents and teachers to visit their campus on Saturday, October 13th.

This year all registration will be done by mail. This means that students and other visitors must pick up pre-registration cards, programs and campus maps from the principal.

Besides seeing the building and campus of the college, visitors will receive among their preregistration papers a free pass to the football game with Connecticut, and will have the opportunity for an interview, regarding admission. The Registrar will conduct personal interviews from 8:30 am to 3:30 pm, and the Director of Short Courses will interview applicants for admission to the two-year vocational Stockbridge School of Agriculture, from 9 am to 1:30 pm.

### BRESS STORE TO ACQUIRE TWIN IN BURLINGTON

Tom Bresnahan, owner and manager of the Bress Store in Wilmington Square, will open another store at 1055 Cambridge St in Burlington on the 20th of October. It will be a five and ten cent store -- very similar to the one now in Wilmington. Mr Bresnahan would like to destroy vague rumors that have been floating around by saying that he is not moving shop -- only starting moving shop -- only starting another one. His store in Wilmington will still continue to do business.

### LEGION MEETS TONIGHT

Wilmington Post 136, American Legion, will meet tonight, at 8 pm., in the Legion Hall.

In a special message to Past Commanders, Adjutant Ralph Zwicker has issued a message that the Legion Hall is still on Middlesex Avenue.

### SPECIAL TOWN MEETING OCTOBER 29TH

The Board of Selectmen have called a Special Town Meeting on October 29th, at 8:00 pm. All articles to be included in the warrant must be submitted to the board not later than 5 pm October 10, 1956.

The meeting is called so that the town can act on the option taken on part of the Signore property, reserved for a future school site.

of any errors which may occur.

Photographic reproductions of any picture appearing in  
the TOWN CRIER may be purchased at our office. Price  
\$1.00.

Second-class mail privileges authorized at  
North Wilmington, Massachusetts.

### 1956 TAXES

The first of October has passed, the ordinary  
date line by which a taxpayer has to file an  
appeal for an abatement, if he believes his  
taxes are too high, for one reason or another.  
Such an appeal is always filed after the tax  
bill has been received, but before the first  
of October.

This year the tax bills were not sent to the  
people by the first of October.

We have heard it said that our Town Counsel  
is of the opinion that appeals filed as soon  
as the bill is received will be legal, in a  
full sense of the word. We are not sure of  
this, because we were not present to hear it,  
but it could be a reasonable premise, under  
the circumstances.

Meanwhile the only thing we can report is  
that the Town Hall employees are working over-  
time to get those bills out.

### THE POLICE STATION COMMITTEE

Our little diatribe of last week forgot to  
mention a salient feature of the committee  
that worked on the police station problem.

The committee was, we think, outstanding. It  
thoroughly reviewed the situation, before at-  
tempting to come to conclusions. Having done  
this it was not afraid to speak its mind, in  
all respects. And, its final result shows only  
hard and conscientious work.

We think the committee is to be highly com-  
mended. Its chairman, Mr William A Beers is  
perhaps not too well known in Wilmington, as  
he has lived here but a few years, but he has  
shown himself to be an outstanding citizen. We  
will probably hear more of him, in time to  
come. The others on the committee are all bet-  
ter known, and equally high in our esteem.  
Just for the record, the others are William I  
Irwin, of the Wilmington Planning Board,  
Charles Black, Wilmington Selectman, Earl Ham-  
ilton, and Garnet S Mills, both local contract  
ors.

It was a job well done, and we extend our  
congratulations.

### VETERINARY HOSPITAL

Dr S A Kay, a veterinarian, some time ago ap-  
pealed to the Board of Appeals, for the right  
to operate an animal hospital at 1 Grove Ave.  
He was turned down in spite of the fact that

the Board felt that such a hospital could be  
useful in the town of Wilmington. Local press-  
ure was against Dr Kay.

Later the town officials stated that the gen-  
tleman was operating a hospital at the site,  
and had an injunction served against him, or-  
dering that he cease and desist.

Of course the town officials have no alterna-  
tive than to enforce the law, and if they felt  
that an hospital was being conducted they had  
to do their duty, but we can't help but feel  
sympathetic towards Dr Kay.

We hope that he is able to find another site,  
and that he can continue in his chosen line of  
endeavor in this town. We need a veterinarian  
here, and Dr Kay has demonstrated his desires  
to locate here.

Somewhere there should be a place where he  
can practice.

### JACOB CHEIFITZ

We never had the pleasure of knowing Mr Jacob  
Cheifitz very well. Our knowledge of the gen-  
tleman, who passed on recently, was confined  
to remarks by his co-religionists, members of  
the Wilmington Synagogue.

Mr Cheifitz, like many of the older residents  
of the United States was born in a foreign land  
and perhaps was not too well understood by our  
younger generations.

He had something that the younger generation  
might not be able to profess, however, a thor-  
ough knowledge of his chosen religion. It was  
he who read the Torah, the Hebrew Book of Learn-  
ing, in the Wilmington Synagogue. It was he who  
instructed those not so old as himself. It was  
he who was the Dean of Religious Education in  
the Synagogue which he helped to found.

A man's religious belief is a thing peculiar  
to himself, in this land of freedom and dem-  
ocracy. If our people, of any church could know  
and understand their religion as Jacob Cheifitz  
did his own, we would be living in a world of  
better understanding today.

### CAFETERIA MENU WEEK OF OCTOBER 8

## TOWN NOTES

### Weather

We had 3.69 inches of rain in  
September, of which 1.32 fell  
during the past week, and over  
half during the last two weeks.  
In spite of this the rivers and  
brooks are still at their low  
point. Martin's Brook still is  
bone dry, as is Cold Spring  
Brook, both now for over six  
weeks.

We are now approaching the  
most glorious period of the  
year, that of the fall foliage.  
Our swamp maples, with their  
red leaves, our elms with their  
golden, and the Norway maples  
with their beautiful hues are  
well worth a second glance.

Now too is the time of the  
year when the crows seem to  
gain ascendancy - at least  
they are more to be seen. Per-  
haps it is because the Kingbird  
has left for the south, the

## TWENTY FIFTH ANNIVERSARY

MR AND MRS STANLEY CADY OF CHURCH STREET, PHOTOGRAPHED DURING THEIR 'AT HOME' ON THE OCCASION OF THEIR 25TH ANNIVERSARY, LAST SUNDAY.

MR AND MRS CARL CADY AND FRIEND

MR AND MRS CARL CADY, OF TEMPLE PLACE, WHO CELEBRATED THEIR 57TH ANNIVERSARY LAST SUNDAY, TO THE RIGHT IS MRS ELVIRA HENDERSON, AN OLD FRIEND OF THE CADY FAMILY, WHO LIVED ON CHURCH STREET ABOUT THIRTY YEARS AGO (THE RAYMOND ASHWORTH HOME), BUT NOW LIVES IN READING.

## CHANGES MADE IN NIGHT SCHOOL

Nine courses have been dropped from the Adult Night School, which now has an enrollment of 420 town residents and 272 out-of-towners. The courses were dropped because not enough people were interested in them. They are: Beginners Shorthand, Advanced Shorthand, Public Speaking, Bookkeeping, Math, Foods, Jewelry, Knitting and Fabric Painting.

Three courses which have been changed from Monday to Tuesday night are Rug Hooking (taught by Mrs. Grant), Tailoring (Mrs. Lafionatis) and Beginners Clothing (Mrs. Brien).

Woodworking (Mrs. Hamblen), Rug Hooking (Mrs. Grant), Beginner's Type (Miss Welling), Braiding (Mrs. Schmidt) and Beginner's Clothing (Mrs. Lafionatis) will be taught on both Tuesday and Thursday nights.

Single night courses for Tuesday are Americanization (Miss Leiter) Driver Education (Mr. DeLuca).

Those for Thursday evening only are Pottery (no instructor, as yet) Upholstery (Mr. Mellet) and Decorated Ware (Mrs. Maziarz).

Thursday evening, Confessions in preparation for First Friday Friday, Oct. 5, from 1 pm to 10 pm and Saturday, Oct. 6, from 11 am to 10 pm, Annual Bazaar at St. Dorothy's Hall and the parish grounds. Drawing for

## TOWN NOTES

(From Pg 2)

Kingbird who harried the crows all summer. Anyway, the crows may be heard in the early morning, holding a caucus on top of some convenient pine trees.

In our fields the purple asters may be seen, with a few thistles, purple in color. It seems as though the purple flowers are those of after-the-first frost, never to be seen during the summer months.

We will soon, if we are not now, enjoy our Indian Summer, a reprieve from the cold snaps in which we can go out and bask in the sunlight. The early Indians were, of course migratory in their habits, and went southwards when the cold weather began, but held off until the end of Indian Summer.

People in New England call Indian Summer 'the Fifth Season'. Meteorologists disagree, and say that there isn't any such animal, but we like the new England story better.

## Pumpkins

Who has the biggest pumpkin this year? We have seen a few that are respectable in size, but we haven't seen any real monsters yet, the milk-fed kind. We are interested to know if any Wilmington farmer's are still up to this old New England trick.

## Public Speaker

Town Manager Joseph Courtney has suddenly come into demand as a public speaker, as a result of the AVCO activities in Wilmington. He is to speak in Holyoke, before the Massachusetts Federation of Planning Boards. He is to speak in Memphis Tennessee on November 14th before the National Municipal League. He is to speak before the New England Council for Economic Development in Boston on Nov. 15th.

In each case his subject will be 'The town of Wilmington as a case study in Planning.'

## Route 28

Tuesday's Boston traveller reported that bids will be advertised, for Route 28, in December of this year. The Wilmington section, according to the Traveller, will be the most expensive to build.

## Chapter 90

Still kept under the wraps is the fact that West Street is

being considered as a Chapter 90 road, to be widened, etc., etc., by the state and county.

## Marksmen Shop

George Shepard, better known to his High School classmates of long ago as '300 boo', base ball player extraordinary, and now a member in good standing of the Wilmington Police Department has returned home after attending the FBI School at Camp Curtis Guild.

George, some people may be interested to note, proved to be a phenomenal marksman, on the shooting range. His score was 98%, better than that of many of the G Men themselves.

## Just a Rumor

We have heard a rumor, from a man who is in a position to know, that a former Town Manager of this town will be appointed Commissioner of Public Safety of Massachusetts. Our friend says that General Otis M Whitney, the present Commissioner seeks to retire.

Personally we don't believe it.

## Ticket Seller

The Wilmington Lions Club is having their annual dance, the Lions Harvest Ball, this Friday, at the Andover Country Club. As usual, the Lions have a competition to see who sells the most tickets. At the head of the list, as of this writing is Don Kidder, of Woburn St. Don has sold 35 tickets,

and he is still going strong.

## An Old Tale

The front page story, last week, about the 57th anniversary of Mr and Mrs Carl Cady, together with the 25th anniversary of Mr and Mrs Stanley Cady brings to mind a story that we have told before, but which will bear repeating. It is one of the early days of the Wilmington Fire Department when a horse-drawn wagon, with man-power pumps, was the order of the day.

Carl Cady, when he was a young fellow, was doing some work in the Congregational Church. He was about 16, and the work had something to do about a space in the north side of the church. Carl, being lithe, was lowered down into a recess, from above the sanctuary, on a long rope. The space into which he was lowered was about two feet wide and less than 18 inches deep, and it was his job to knock down the nails which projected into this space.

While he was doing this, at the end of about 30 or 40 feet of rope the fire whistle blew.

Everybody dashed off to the fire. A couple of hours later they returned. Only then was Carl hauled up from that recess, having spent two hours wondering where everybody was, while dangling on a long piece of rope.

# BEACON HILL COMMENTARY Rep. Charles E. Wilkinson

The Bill for the accelerated highways has finally passed by a House vote of 208 to 6 and Senate 38 to 0. Despite the overwhelming vote in the House the Bill was subject to a vicious attack by the Majority Leader (who report has it is high in the management of Mr Furcolo's campaign) assisted by another member from Worcester who failed in their attempt to tie the Bill up again. The Majority Leader has been in the forefront of every fight against the Bill regardless of the expressed wishes of the citizens of the State. The attack was centered on that section of the Bill allowing \$25 million of the Bond Issue to be used for the purpose of re-imbursement to utility companies for their expense in moving poles, lines and other work made necessary when the State is constructing a new road or bridge under the provisions of this Bill. Large expenditures by utility companies usually find their way back to the consumer through increased rates. Under the setup of this Bill the reimbursement, by the State, to the utility company is considered part of the cost of construction by the State which cost is re-imbursed in part by the Federal Government. While the re-imbursement to the utility company might not be on a 100% basis it would reduce the expense of the utility company thus keeping the increase in rates to the consumer at a much lower increase. This section is easily understood and is a saving to the public yet this Majority Leader wanted it out of the Bill. When the votes were counted the 'Leader' could only corral 15 other votes. The Bill contained an amendment, by the writer Rep. Wil-

inson, allowing the owner of a home four months leeway before he has to leave his home after the 'taking' by the State. The original amendment called for six months but the Senate cut out the amendment. It was later revived by a Conference Committee who arrived at a four month period.

It is the belief of the writer there will be some action on the relocation of Route 28 in the not too far future. The Legislature went back into session Tuesday, Sept 25, but the same conditions exist as at the time of the recess in August. Short sessions and no session on Friday. The Senate refused to take up the Barrington Report until Monday, October 1. When the House adjourned Thursday the Speaker announced that if all matters could not be cleared up by Saturday, Oct 6 he would recess until after the November elections.

## HOW TO REGILD A WEATHERVANE

THE SMALL SPECK OF A MAN IN THE PICTURE IS STEEPLEJACK LAURIE YOUNG OF WAKEFIELD, WHO IS IN THE ACT OF TAKING DOWN THE WEATHERVANE FROM THE 120 FOOT CONGREGATIONAL CHURCH STEEPLE SO THAT IT CAN BE REGILDED. THE PICTURE BELOW SHOWS THE WEATHERVANE AS FEW HAVE SEEN IT, AS WELL AS A CLOSER ALTHOUGH LESS SPECTACULAR SHOT OF THE STEEPLEJACK HIMSELF.

MR YOUNG IS 54 YEARS OLD, AND STILL ENJOYS HIS WORK, ALTHOUGH HE HIBERNATES INDOORS TO HIS WINTER PROFESSION OF PAINTING SIGNS EARLIER THAN SOME OF HIS COLLEAGUES. DURING HIS CAREER HE HAS CLIMBED THE STEEPLE OF THE WILMINGTON CHURCH MANY TIMES, HAS REMOVED THE FAMOUS GRASSHOPPER WEATHERVANE FROM FANUEIL HALL AND HAS CLIMBED OVER 500 FEET ABOVE THE GROUND TO DO REPAIRS ON THE CUSTOM HOUSE TOWER.

MR YOUNG HAS YET TO WORK ON THE CHURCH CLOCK, WHICH IS TO BE REGILDED ALONG WITH THE WEATHERVANE.

## AVCO

(from Front Page)

decided that in this farflung enterprise they would have one division that would be just for research and development--that is why we have the AVCO Research and Development Corporation today,--a division of the company that would work in the sense of the future, and in the sense of the world climate today.

As you know, we have our historical eras. We had the Industrial Revolution--the Era of Steam. Then we had the Era of Electricity. Now, I think, in this century, we are now involved in the Era of Research and Development,--not just AVCO, but the human race, in its awareness of Science and Physics. The standard of living is very closely attached to this--on a world wide basis too.

In 1905 there was set up the General Electric laboratory--the first time in which a group of people were assigned solely to the testing of products. Today there are 3500 or 4000 such laboratories of one sort or another, and they have a very great influence on the type of training that people today have.

We have today an enormous amount of research and development because of the problems of defense. We are not only involved in very real international competition--a competition that cannot, in the least be minimized.

Many products which are widely sold today were unknown 15 years ago. Our president, Victor Emmanuel, has a great appreciation of the role of development--his role in the war gave ample evidence of this, and he felt that we should have even a greater effort, and it is that which we are now trying to launch.

**Why we came to Wilmington**  
Why did we come to Wilmington? There are some real intangibles in the answer, but perhaps the greatest emphasis is on the quality of scientists. We had to find an atmosphere conducive to scholarship, one where we could be close to the professors of the great universities, who can always contribute in a real sense to our laboratories, and to the people in them, and prevent them from becoming too specialized.

We felt that we wanted an environment that was not too crowded, with public utilities and close to an educational and cultural center--so we chose Boston, the home of MIT, and Harvard. We were able to find in Wilmington the necessary ingredients in no insignificant way--we felt that the town was progressive, and had a progressive government, and it is here that we are going to establish our research and development center.

There will be four main buildings, with 400,500 square feet. We will have a total personnel of about 1500 people. A great deal of care is being put into the planning of the buildings, to present and provide the proper atmosphere for the highly gifted people who will work here.

You know it is said that a professor is somewhat absent-minded. Well, it is true. The man who is highly productive in a scientific way does depart from the norm of the average sort of people, and we are going to give them the atmosphere that they want.

We are going to pay great attention to the utilities--to water, gas and electricity. The partitions within our buildings will be capable of being moved as needed.

For our clerical help, accounting, purchasing, we will design and make our buildings as attractive as possible, as well.

## Projects of AVCO

Up to the present our main efforts have been in military projects. We have been working, as you may know, on the Intercontinental Ballistic Missile, and the AVCO part has been to furnish the scientific information on the upper atmosphere. We are involved in the problems of having such a missile return to the atmosphere, a problem that involves the sciences of physics, magnetism, temperature aerodynamics, and many others.

In our Everett laboratory, at the present time, AVCO can generate shock speeds of 1800 miles per second, and AVCO scientists can, for the briefest second of time, produce a temperature that is higher than that of the sun--but we do this for only one ten-thousandth of a second--obviously if we allowed it to last any longer it would burn everything up. But, we time our instruments so that in that brief period we can get the answer that we are seeking.

We are, of course, in our temporary headquarters in Lawrence, but when we move to Wilmington we will be able to go on to other things, in the future--all sorts of things which we hope to be able to solve--it will be a tremendous step.

We will work on the problems of applying forces to a moving body which is without atmos-

phere--to magnetic hydrodynamics, which is the flow of ionized fluids.

**Chemical to Electrical Energy**  
One of the problems in which we would like to work is the direct conversion of chemical to electrical energy--energy production and conversion--we will delve in all phases of the subject.

## Leadership of Science

One of the most important things to remember to preserve the peace in this world today is that we must retain our leadership in science and industry. That doesn't mean the production of weapons, that will be taken care of--but the leadership in science itself--medicine and other sciences too.

## Satellite Program

AVCO is prepared to contribute heavily to the program of construction of satellites, about which you have heard.

## Good Neighbor

We hope, in the months and years to come, that in a very real sense that all of you will be a participant in this new center.

## ST. THOMAS NEWS

Sunday, Oct. 7, Masses: 7, 8, 9, 10, 11, 12.

Weekdays, Masses: 7, 7:30 am. The Rosary Litany of the Blessed Virgin and prayer to St. Joseph during the month of October.

Thursday, Oct. 4, confessions at 7:30 pm in preparation for First Friday.

First Friday, Masses: 6, 7, and 7:30 am and Sacred Heart Devotions at 7:45 pm. Bazaar meeting after devotions at Villanova Hall.

'IF YOU LIVE IN A GLASS HOUSE DON'T THROW STONES.'  
THIS QUOTATION IS ONE OF THE EARLIEST ONES I CAN REMEMBER, AND FOR THE LONGEST TIME I COULDN'T UNDERSTAND THE SIGNIFICANCE OF IT. I NEVER KNEW ANYONE WHO HAD EVER LIVED IN A GLASS HOUSE, AND AS A KID COULD SEE MANY COMPLICATIONS TO SUCH A HOME.

THIS PAST WEEKEND, WHILE VISITING FRIENDS AT BIDDEFORD, MAINE, I SAW AN ACTUAL, BELIEVE IT OR NOT, GLASS HOUSE.

AS I CAME UP TO IT, THERE WAS NO VISIBLE MEANS OF GETTING INTO IT, SINCE IT HAS NO DOORS. THE HOST TOOK PITY ON US AND OPENED A WALL SO THAT WE COULD ENTER. IT SEEMS THAT YOU CAN ENTER FROM ANY SIDE, SINCE EVERY WALL SLIDES OPEN.

IT HAS INDIRECT, MODULATED LIGHTING, AND REQUIRES VERY LITTLE HEATING. YOU CAN SEE OUT, BUT PEOPLE CAN'T SEE IN. ALTOGETHER, IT WAS A FANTASTICALLY INTERESTING PLACE, ONE OF THOSE THAT YOU READ ABOUT IN THE THINGS OF TOMORROW, AND NEVER EXPECT TO SEE.

AT CHAPIN-NICHOLS, WE DON'T DEAL IN HEATING SYSTEMS FOR GLASS HOUSES YET, BUT WE DO CARRY THE MOST MODERN OF HEATING EQUIPMENT ON THE MARKET FOR PRESENT DAY HOMES.

WINKLER HEATING EQUIPMENT IS MANUFACTURED BY STEWART WARNER CORP. IT IS BUILT TO THE MOST EXACTING ENGINEERING STANDARDS TO PROVIDE TWENTY FIVE TO THIRTY YEARS OF ECONOMICAL, TROUBLE FREE HEATING COMFORT FOR YOUR HOME. IT IS A COMPLETE LINE, COVERING ALL TYPES OF PRESENT DAY HEATING, WARM AIR WITH SUMMER COOLING, STEAM HEATING, HOT WATER HEATING, AND THE FINEST OIL BURNERS MONEY CAN BUY. WE ARE PROUD TO BE A FRANCHISED DEALER FOR WINKLER HEATING EQUIPMENT.

IF YOU ARE GOING TO CHANGE, MODERNIZE, OR PUT A NEW SYSTEM IN COME AND SEE US. IF YOU'RE GOING TO BUILD A GLASS HOUSE WE WILL BE GLAD TO DO OUR BEST FOR YOU. CALL US A READING 2-3290.

Best Regards

**DR LLOYD P. SMITH,  
PRESIDENT OF AVCO RESEARCH  
AND ADVANCED DEVELOPMENT  
DIVISION**

One of the world's foremost research scientists in solid state physics, electronics and theoretical physics, Dr Lloyd P. Smith is president of the Research and Advanced Development Division of Avco Manufacturing Corporation and vice-president of the parent company. He is widely known as a consultant to industry and the government, as well as for his work as a scientist and administrator. Dr Smith has published numerous scientific papers and is the author of a book, "Mathematical Methods for Scientists and Engineers."

In addition to heading the department of physics at Cornell for the past ten years, he also has been director of its department

of engineering physics. He was instrumental in establishing this department at the close of the war to provide a new program in technical education to prepare students for careers in industrial research.

Dr Smith formerly was a research physicist for the Radio Corporation of America laboratories, with whom he also served as associate director of research and consultant. Since 1947 he has been a consultant to the Oak Ridge National Laboratory, in the nuclear airplane program and in the field of nuclear energy from hydrogen fusion.

In 1942 Dr Smith was asked to join the group working on the Manhattan Project at the University of California as a result of work he was doing at Cornell on electromagnetic isotope separation, in connection with experiments on the treatment of cancer being carried on at

New York Hospital. The work of this group, headed by Ernest O. Lawrence, was to find important application in the uranium isotope production processes at Oak Ridge.

From 1947 to 1949, Dr Smith was a consultant to the Brookhaven National Laboratory. He participated early planning studies for the cosmotron, a device used to accelerate nuclei of hydrogen to extremely high energies. He also is currently a consultant to the Detroit Edison Company on an atomic power development project.

In 1947, Dr Smith received the Navy Certificate of Merit as a result of his invention and development of a new method of electronic frequency modulation with application to radar. This was a part of his work during the war at the Radio Corporation of America Laboratories.

Born November 6, 1903 at Reno, Nevada, Dr Smith received his bachelor of science degree at the University of Nevada in 1925 and was a Coffin Fellow at Cornell, where he was awarded his Ph.D. in 1930. After two years as a national research and international research fellow in physics spent at the California Institute of Technology and the Universities of Munich, Germany, and Utrecht, Holland, he began his educational career as an associate professor of physics at Cornell where he was advanced to full professor in 1936.

Dr Smith is a member of numerous scientific committees and organizations and is currently a faculty member of the board of trustees at Cornell University. He assumed the presidency of Avco's Research and Advanced Development Division

on July 1, 1956, following his appointment by Victor Emanuel, chairman and president of Avco.

**NICHOLS STREET BRIDGE  
DISCUSSED**

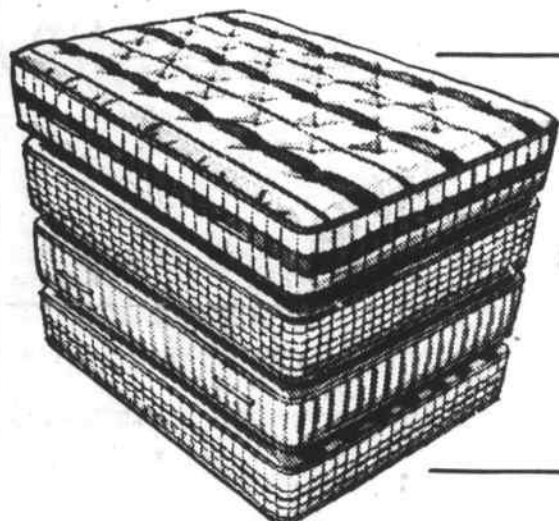

Representative Charles A. Wilkinson, of the state Legislature met with the Board of Selectmen to discuss the Nichols Street railroad bridge. For several years residents of the area have been attempting to have improvements made, in the interests of safety. Several weeks ago the Selectmen passed traffic regulations requiring cars to stop, before crossing this bridge, but these regulations have not been approved by the Department of Public Utilities.

Wilkinson told the Selectmen that he was 'hopeful' of having some action taken on the bridge question. Both he and Representative Tanner have been in almost daily conference with state authorities, he reported, concerning the bridge.

## LETTER TO THE EDITOR

Dear Sir:

Through the medium of your paper I should like to reply to the letter that appeared in the Town Crier, September 20, 1956 issue, signed, 'One Joe Smith'.

Mr Smith was in error when he stated that Little League had displayed an 'Ad' for Budweiser. Since the organization of The Wilmington Little League, some five years ago, Budweiser or any other beer has not sponsored the little league in any way. Sponsors of our teams, who so generously contribute to help support over three hundred boys, ages 8 to 12 inclusive, making it possible for them to learn about our national pastime and keep them out of mischief, are not privileged to have their wares advertised.

Your statement Mr Smith, which implied that people in the beer business were not decent people, certainly was in bad taste. I suppose when some

of the popular radio and television programs come on the air you turn your set off to be sure that you or your children will not look at the beer advertisement. Look around Mr Smith there are many fine people that have chosen this type of business that are good men and women. I know several people that so happen to be in this business that are generous to charities and are a credit to their community.

It gries me to think that there are people in Wilmington like Mr Smith that are so eager to criticize our good citizens, that are willing to give their time with out compensation, or thought of themselves, helping any cause that will benefit children.

Mr Smith I ask you, where were you all season? Did you know that Wilmington Little League Officials had considered whether or not it would be advisable to open the 1956 season, due to lack of helping hands? We are not glorified baby-sitters Mr Smith. Oh yes many of us do not have children of our own participating in the little league. We are just trying to help our neighbor to be good citizens. Well Mr Smith, We of Little League thank God, that it was not necessary to keep little league on the shelf this past season, there were kind people in our community that came forward to help when we advertised for help. Can you umpire, manage a team, use a hammer, rake, shovel, use a garden hose to keep the dust from going in to the little fellows nostrils yes could you even hold a board while some one else nailed it? Mr Smith, come from behind fictitious names and help your fellow man. If they should make mistakes as most of us do, perhaps you can correct them.

Sincerely,  
George S Cushing President,  
Wilmington Little League

ARTHUR J. AHERN, RECENT WITNESS IN THE BRINKS TRIAL

Arthur J Ahern of 17 King Street, retired Boston Police Officer who was called to testify on Sept 27 before the Superior Court in Boston concerning the Brinks robbery.

At the time of the robbery Ahern was promoted from an ordinary Boston police officer to a detective on the Bureau of Criminal Investigation. It was his job to draw plans of the complete layout of the Brinks building and the surrounding area, in an effort to discover how the men had gained entrance. His main contribution to the case was to demonstrate that that any door in the building could be opened, using only a nail file and a piece of cellophane to pry open the lock. Several newspapers gave headline stories of Ahern's findings.

It seems that his conclusions were correct, for according to the recent testimony of 'Specs' O'Keefe, the doors were opened with an ice pick and cellophane.

WILMINGTON LOSES TO  
BURLINGTON - 19-12

The Wilmington High football team lost to Burlington last Saturday, 19-12, in a game in which they decisively outplayed their opponents in the second half.

Burlington scored their three touchdowns in the first half on long break-away runs - the first two on plays through the line, and the third on an intercepted pass. But in the 2nd half they did not get beyond Wilmington's thirty-five yard line.

Joe Gurski scored both touchdowns for Wilmington. One in the third quarter and one in the fourth. Johnny Amaro and Billy R. sa carried the ball, along with Gurski, in short thru-the-line plays that usually picked up four or five yards.

Several statistics reveal that on paper Wilmington outplayed its opponents. Throughout the game they carried the ball 70 times to Burlington's 34, and received 20 first downs to Burlington's 7.

SELECTMEN AND LIGHT MGR.  
SCHEDULED TO CONFER

A meeting of the Board of Selectmen with the Manager of the Reading Municipal Light Dept., requested by Mr Stanford the Mgr., was tentatively scheduled for Wednesday, Oct. 3. The meeting is for the purpose of discussing the rate adjustment affecting the electric rate in Town.

FORMER TOWN ENGINEER  
TENDERED SURPRISE PARTY

George Winters, former Town Engineer, was tendered a surprise party last Saturday in the Colonial Country Club, in Lynnfield, by about 50 friends and town officials. Mr Winters resigned as Town Engineer of Wilmington to assume the position of Director of Public Works of his home town, Wakefield.

Loring Studio Photo.

## MCDEVITT - WALLENT

Miss Louise Margaret McDevitt, daughter of Mr and Mrs Edward J McDevitt of 14 Chestnut Street was given in marriage by her father, to Mr Ernest Matthew Wallent, son of Mr and Mrs Michael Matthew Wallent of 16 Arthur Street in Brockton, in an afternoon service at 2:09 pm on Sept. 9th in the St Thomas of Villanova Church.

Before an altar decorated with white carnations, white gladiolas, pom-poms and stephanotis, the Reverend Father Croke united the couple. The Wedding Recessional, The Ave Maria and Come Holy Ghost were played on the organ.

The bride wore a white floor length gown of imported Chantilly lace with sequins over taffeta, and a fingertipped lace veil with sequins. She carried a missal covered with an orchid, stephanotis and ivy.

Miss Mary Monaghan of Lynn, a

classmate of the bride, was the maid of honor. The bridesmaids were the Misses Doris Fredianni of South Weymouth and Marie Kelleher of Melrose, both classmates, and the Misses Mary Ann Foley and Lorraine Rich, friends of the bride from Wilmington.

The bride's attendants wore ballerina length, boat neck, gowns of orchid taffeta, with deep purple cummerbunds, headpieces and shoes. They wore white gloves, and carried corsages of white gladiolas and pom-poms.

Mr Wallent's best man was his cousin, Mr James Wallent of Brockton. The ushers were the Messrs. James Condon and Edward Gominiski, both friends from Brockton, Mr Edward Couble, a classmate from Brockton and Mr Edward McDevitt, brother of the bride.

After the wedding the reception was held in the Naval Officers' Club in Charlestown. In charge of the guest book was Miss Josephine Meuse, a friend of the bride from Wakefield. Eddie Martin's orchestra from Brockton played the music.

For her place in the receiving line, the bride's mother chose a silver dress with furs, and wore with it an aqua hat and shoes, white gloves and an orchid. The groom's mother wore a blue chantilly lace dress, with deep blue shoes and hand bag, a pink hat and white gloves and orchid.

After the reception the couple flew to New York, and from there to Bermuda, to complete their honeymoon.

The former Miss McDevitt was educated in the Wilmington grammar schools, and is a graduate of Keith Hall in Lowell and the Boston College School of Nursing. She is a member of the American Nurses Association and the Catholic Daughters of America, and is now working at the Boston City Hospital.

Mr Wallent attended the Brockton grammar schools. A graduate of Huntington Prep and Tufts College he is currently enrolled in the Tufts College

School of Dentistry. He belongs to the Theta Delta Chi and Psi Omega fraternities and the Knights of Lithuania, and he is also an officer in the Naval Reserve.

The couple have been living in Boston since the end of their honeymoon on September 20th.

SANDRA HIBBARD

MISS SANDRA HIBBARD, OF ROOSEVELT ROAD, WHO WAS ADMITTED TO THE ESSEX COUNTY AGRICULTURAL SCHOOL LAST WEEK, AS A STUDENT OF FLORICULTURE. SHE IS THE DAUGHTER OF MR AND MRS CLARENCE A HIBBARD.

## BIRTHS

TINGEN, Rita Kaye, Sept 17, at Murphy Army Hospital, Waltham, second child, to S/Sgt and Mrs W G Tingen, Shady Lane Drive. FULLER, Kenneth Andrew, Sept 22, at Melrose Hospital, third child, first boy, to Mr and Mrs Kenneth Edward Fuller, Oakdale Rd, the first AVCO baby in Wilmington.

GIVEN, Gayle Ann, Sept 25, at Mt Auburn Hospital, Cambridge, 4th child, to Mr and Mrs Robert Given, Mystic Ave. Grandparents are Mr and Mrs Edward Dickhaut of Belmont, and Mr John P Given of Watertown.

RILEY, Margaret, Sept 25, at St John's Hospital, Lowell 5th child, third daughter, to Mr and Mrs Stanley G Riley Cedarcrest Rd.

WARD, baby girl, Sept 26, at Choate Memorial Hospital, Woburn, to Mr and Mrs Arthur C Ward, North St. Grandparents are Mr and Mrs Herbert Gibson, North Woburn, and Mr and Mrs Charles C Ward, Pelham, N H.

TENEHAN, Baby boy, second child, born Oct. 1, at New England Sanatorium, to Mr and Mrs Joseph Tenehan, Sheridan Road.

## CONGREGATIONAL NEWS

The Church Cabinet will meet at the parsonage Thursday at 8 pm.

Next Sunday morning Worldwide Communion Sunday will be observed at both services, 9:30 and 11:00, with Church School at the same hours. The Quaintance Club meets at 5 pm and the Fireside Fellowship at 7 pm. The Couples Club will hold its first meeting of the season Sunday at 8 pm, with Mr

## FIRST ANNIVERSARY

This week marks our first year in business in North Wilmington. To show our appreciation to those who made this past year a successful one, we are going to take the bottom off prices! There are a lot of wonderful buys lined up for you this week. Sweet, Red Tokay grapes only 10¢ a pound. Mac Apples 3 lbs for 29¢. Large 6 oz. jars of Instant Nescafe only \$1.33.

We are giving ten pounds of U S No 1 Maine Potatoes absolutely free with any \$10.00 purchase. In our meat department you will be able to buy lean, meaty short shank, smoked shoulders for only 33¢ a pound or boneless sirloin roasts for 69¢ a pound.

You can beat high coffee prices with John's Best Coffee at only 99¢ a pound or White House (in the can) at 89¢ a pound. Bring us your Proctor and Gamble or Lever Bros. coupons. We are selling large size Tide this week for only 25¢ a package.

For this special occasion we will be open till 8 pm Thursday, Friday and Saturday Nite.

# ELIA'S

Donald Tibbetts as speaker.

The East Branch will meet at the parish house Monday at 8 pm.

The Finance Committee will hold its monthly meeting at the parish house Tuesday at 8 pm.

The Fireside Fellowship will observe Columbus Day, October 12th, as Workday for Christ.

Young people will be available to wash and polish cars, baby-sitting, raking leaves, window washing, housework, putting on storm windows, and almost anything that needs to be done around the house. Girls will be available to do some cooking, ironing and washing. No set price will be charged, and people may pay whatever they think the young people have earned. For reservations call Freda Shepherd (8-2931), Sarah Marsh (8-3900), or Mr Cummings.

## MOLLY CHEIFETZ

Molly Cheifetz died suddenly at her home at 30 Salem Street Wednesday, Sept. 16, less than a month after the death of her father, Jacob Louis Cheifetz. She leaves her mother, Mrs Jennie Cheifetz, one brother, Harry, of Wilmington, and five sisters, Mrs Fanny Menovich of Dorchester, Mrs Ida Kornetsky of Chelsea, Helen Cheifetz of Wilmington, Mrs Tilda Harris of Chelsea, and Edith Cheifetz of Wilmington.
